Custom software development for inter-modal, logistics, warehousing, ports and airports

**Accurate Airport Data
when you need it**

Hewanorra International Airport - Saint Lucia

Ideal Business Services Ltd. announces a new Airport Statistical Management Information System (ASMIS) to help small to medium sized airports monitor all aircraft, passenger and cargo activity more effectively.

ASMIS is a new addition to the suite of software solutions developed by logistics and distribution software specialists Ideal Business Services Ltd. ASMIS is currently being used at a number of regional airports within the Caribbean area.

ASMIS is a web-based application providing real-time information and management reports on all airport activity, including:

- AIRCRAFT ARRIVALS AND DEPARTURES

- PASSENGER NUMBERS, EMBARKING, DISEMBARKING AND INTRANSIT

- CARGO DATA

- ANALYSIS OF AIRCRAFT OPERATOR ACTIVITY

- PARKINGS AND OVERTIME MONITORING BY AIRLINE

- ANALYSIS OF AIRCRAFT MOVEMENTS BY TYPE AND BY CATEGORY

- SERVICE CHARGE CALCULATIONS AND INVOICE PRODUCTION

- LOAD FACTOR CALCULATIONS FOR EFFECTIVE DECISION MAKING

- SCHEDULED FLIGHT MAINTENANCE

- EFFECTIVE ASSISTANCE FOR ATCO

- CARIBBEAN BASED SUPPORT PERSONNEL

"Ideal has transformed our airport operations."- Melville Hall Airport - Dominica

"Ideal has transformed our air and sea port operations by effectively utilizing technology to design and implement the type of information systems that have resulted in increased operational efficiencies throughout SLASPA. Their high level of professionalism, dedication and exceptional programming skills have contributed to the smooth transition from manual processes to fully automated information systems"

Grace Michel, Director of Information Systems SLASPA

"... Presently, we have ASMIS installed and it is being used at both of our airports effectively. We are very satisfied with the level of support and the fact that ASMIS can be customized to suit our needs. The Ideal staff that we deal with are very friendly, professional and highly competent. The willingness to fulfill our requests and also make recommendations really builds our confidence in Ideal and gives the assurance that they work with the customer's best interest at heart. Thank you Ideal"

Kelvin C. Henderson IT Systems Administrator DASPA

Contact us for more information...

We are now offering **ASMIS** to all airports as either a standalone solution or integrated into existing computer systems. For more information, please contact us.
