

Custom software development for inter-modal, logistics, warehousing, ports and airports

ChemEcal

Materials Management Made Easy

UK and Europe Tel: +44 1942 209578
Caribbean & USA Tel: +1 758 7214487

ChemEcal is a sophisticated computer system designed to manage the buying and selling of materials for chemical and food traders.

ChemEcal easily controls the purchase of materials, direct sales, stock holding, blending, packing and delivery of packed and bulk goods.

ChemEcal is one of the family of systems developed by Ideal Business Services Ltd for the logistics and distribution industries.

ChemEcal offers your operation a host of benefits...

- BULK GOODS ARE CONTROLLED BY WEIGHT AND CAN BE DELIVERED DIRECT FROM SUPPLIER TO CUSTOMER OR RECEIVED FROM THE SUPPLIER TO A BULK TANK IN STORE.
- BULK GOODS IN STORE CAN BE BLENDED AND/OR MADE INTO PACKED GOODS.
- PACKED GOODS ARE CONTROLLED BY WEIGHT AND PACK SIZE AND CAN BE DELIVERED DIRECT FROM THE SUPPLIER OR RECEIVED INTO STORE.
- PACKED GOODS IN STORE CAN BE TRANSFERRED TO BULK OR REPACKED.
- THE SYSTEM CONTROLS PRODUCTS BY WEIGHT, VALUE IN ANY CHOSEN CURRENCY AND PRODUCES ALL DOCUMENTATION AND SALES INVOICES AUTOMATICALLY. DOCUMENTS CAN BE SENT FROM THE SYSTEM BY FAX OR EMAIL.
- CHEMECAL PROVIDES COMPLETE TRACEABILITY AND STOCK CONTROL AS WELL AS A COMPREHENSIVE RANGE OF FINANCIAL MANAGEMENT REPORTS.

Customised to your specific needs...

ChemEcal is modular in design and as such can be easily customised to meet each organisation's specific requirements.

For your complete peace of mind the system is fully supported via our in-house support desk. We're here to help!

ChemEcal has been rigorously tested by The White Sea & Baltic Co Ltd of Leeds, who have been successfully using the system for almost a decade to supply a wide range of products to the pharmaceuticals, cosmetics, plastics, oils, lubricants, detergents and other industries. The system is also installed at F. Holm Chemie Handels GmbH, Germany, part of KLK Oleo Europe GmbH.

High level facilities...

ChemEcal is a pull-down easy-to-use menu driven system. Main features of the system include:

System Maintenance

- Products

Sales

- Automatically raised invoices
- Manually raised invoices
- Interface with accounts sales ledger

Purchases

- Processing of purchase invoices
- Interface with accounts purchase ledger

"Complete traceability and stock control"

BULK TRADER operates on industry standard Microsoft and PC hardware/software platforms in a Client/Server environment:

Server Microsoft Windows 2000/2003 Linux IBM UniData/NT Multidimensional Relational Database System Builder/NT 4th Generation Application Generator

Client Microsoft Windows 98 or XP SB Client

All functions are fully integrated and utilise on-line processing techniques, including features such as immediate data validation.

"We feel the bespoke chemicals trading system that Ideal have designed and implemented for us has given our company tremendous benefits, including most importantly accurate stock control together with the control of sale and purchase contracts, sales invoicing, control of product blending and production, all interfacing directly with the financial accounts system. The solution has been bespoke designed to meet our exact requirements and the additional modifications and ongoing support have been excellent in every respect. Ideal is always there when we need you – which means that WSB is always there when our customers need us!"

The White Sea & Baltic Company

"We are working with you now 3 years since you established the system on our server. We are fully satisfied with your work and service. Despite the comparatively long distance between our companies you have always been able to do necessary service works through the Internet or on phone quickly and to our satisfaction."

F. HOLM CHEMIE HANDELS GmbH, Germany
